

# Meet our new cocktail partner, Bartesian

**Craft 50+ Bar Quality Cocktails in Seconds**

1 CUBIC FOOT

Proven to

1) Increase Revenue 2) Streamline Operational Costs 3) Improve Guest Experience

The Bartesian has been a game-changer for our establishment. One of the key advantages we love about Bartesian is that it **eliminates the need for extensive bartender training**. With its user-friendly design and automated capabilities, our pool attendants can now easily serve drinks without any prior bartending experience.

The introduction of our **Bartesian program has brought about remarkable results, particularly in terms of revenue**. Since our guests no longer have to make the trek to the restaurant to order their drinks, there has been a **significant increase in sales**. This convenience has led to a higher number of orders, ultimately boosting our overall revenue.

Not only does Bartesian improve our financial performance, but it also **dramatically enhances our guests' experience** at the pool. By having a Bartesian machine on-site, our customers can enjoy a wide variety of high-quality cocktails without having to leave their poolside loungers. This level of convenience and sophistication has elevated the overall ambiance and service we provide, leaving our **guests highly satisfied**.

The immediate positive impact on revenue, coupled with the enhanced guest experience, makes Bartesian an invaluable addition to our establishment.
